SUBJECT INDEX

A

AGRICULTURAL MACHINERY
Reducing noise in large farm tractors Sep 52

AIRCOOLED ENGINES
Small engine emissions and their impact July 15

AIRCRAFT
see:
Supersonic Transports

AIR POLLUTION
see also:
Emissions Control
Exhaust Emissions

Can you afford (not) to breathe? Apr 20

Pollution control: the missing data June 24

ALUMINUM ALLOYS
Fatigue behavior of aluminum alloy die-forgings for automotive parts Feb 36

Designing aluminum forgings for transportation equipment Apr 36

ALUMINUM ENGINES
Gradual improvement is keynote of European car design trends Feb 15

ANTIKNOCK RATING
New fuel rating system eases consumer selection May 48

ANTISKID DEVICES
Lucas answers questions about their car control systems Mar 36

AUTOMATIC CONTROL
Automatic fueling system cuts vehicle fueling costs Dec 34

Automated highway-traffic management strategy Jan 20

Automated highways - configurations Jan 28

AUTOMATIC TRANSMISSIONS
Japanese car designs stress comfort, safety, low cost June 15

AUTOMOBILE INDUSTRY
The changing world scene and the international automotive industry Mar 42

AUTOMOTIVE DIAGNOSIS
The future for automotive diagnostic systems Sep 21

B

BODIES
Gradual improvement is keynote of European car design trends Feb 15

BONDING
see:
Welding

BOOSTER ROCKETS
Space shuttle engines stress low cost, maintenance, reuse Oct 10

BRAKES
see also:
Disc Brakes

Gradual improvement is keynote of European car design trends Feb 15

Measuring brake stopping power Mar 54

C

CALIBRATION
How to calibrate a carburetor on an engine dynamometer Dec 46

CARBURETORS/CARBURETION
How to calibrate a carburetor on an engine dynamometer Dec 46

Gradual improvement is keynote of European car design trends Feb 15

XUM

COMBUSTION
Computation shows exhaust reactor should run above 1400 F with air Apr 40

Combustion and emission properties of rotary engines July 26

COMPUTER APPLICATIONS
Small on-line computer controls emission test June 42

The future for automotive diagnostic systems Sep 21

CONTAMINATION
see:
Air Pollution

CONTROL SYSTEMS
see:
Automatic Control
Electronic Control/Electronic
Production Control
Speed Control

COOLING
see:
Engine Cooling

COST ANALYSIS
Can you afford (not) to breathe? Apr 20

D

DATA ACQUISITION
Small on-line computer controls emission test June 42

DESIGN
see:
Passenger Car Design

DIESEL ENGINES
Controlling exhaust emissions in diesel engines Sep 54

Can diesels meet 1975 California emissions limits? Dec 27

Quieting the diesel with structural changes Dec 31

DIFFERENTIAL GEARS
New limited-slip differential for heavy-duty trucks Oct 36

DISC BRAKES
Rear disc brake solves parking actuation problems Jan 64

Japanese car designs stress comfort, safety, low cost June 15

DYNAMOMETERS
Measuring brake stopping power Mar 54

E

EDUCATION
Industrial classroom trains minority group for industry jobs Feb 39

3-level job training can help meet demand for mechanics Mar 49

Engineering education in an era of impatience Aug 42

ELECTRIC CONTROL/ELECTRONIC
Lucas answers questions about their car control system Mar 36

EMISSIONS CONTROL
Thermal reactors work better with correct air intake Feb 26

Academy of Sciences weighs problems of meeting '75-'76 emission requirements Mar 30

Can you afford (not) to breathe? Apr 20

Computation shows exhaust reactor should run above 1400 F with air Apr 40

What lead additives do to emissions control systems May 32

Future automotive fuels June 36

1973 passenger car engineering highlights Oct 38

Future gasoline quality Nov 17

NYC finds that simple tune-up slashes exhaust emissions Nov 27

Can diesels meet 1975 California emissions limits? Dec 27

The regulated automobile Dec 42

ENGINE COOLING
More horsepower from small rotary engines June 30

XUM

ENGINE DEPOSITS
Hydrocarbon emissions rise when leaded fuels are used Mar 51

More horsepower from small rotary engines June 30

ENGINEERS
see also:
Education

Engineer and his knowledge are highly transferable Feb 30

Aerospace technology: key to the future Feb 33

Technology assessment and the automotive engineer Nov 36

ENGINES
see:
Aircooled Engines
Aluminum Engines
Diesel Engines
External Combustion Engines
Gas Engines
Gasoline Engines
Hydrogen Engines
Rocket Engines
Rotary Combustion Engines
Small Engines
Steam Engines
Turbine Engines

ENVIRONMENT
Pollution control: the missing data June 24

EXHAUST EMISSIONS
Mobile test vehicle measures exhaust emissions on the road Jan 68

Hydrocarbon emissions rise when leaded fuels are used Mar 51

Brakes, headlights, exhaust head list of cars' weak points May 42

Natural gas engine for buses meets 1975 emission limits June 28

Small on-line computer controls emission test June 42

Small engine emissions and their impact July 15

Combustion and emission properties of rotary engines July 26

Low-octane fuel is o. k. for rotary engines Aug 28

Brobeck steam bus engine cuts exhaust emissions Sep 43

Controlling exhaust emissions in diesel engines Sep 54

NYC finds that simple tune-up slashes exhaust emissions Nov 27

Can diesels meet 1975 California emissions limits? Dec 27

EXTERNAL COMBUSTION ENGINES
New rankine cycle rotary engine is compact and has no valves Jan 73

External combustion engine works air through sealed loop Sep 58

F

FATIGUE
Fatigue behavior of aluminum alloy die-forgings for automotive parts Feb 36

FIELD TESTS
Hydrocarbon emissions rise when leaded fuels are used Mar 51

FLYWHEELS
Inertia welding improves bond toughness, fatigue strength Dec 39

FORGING
Fatigue behavior of aluminum alloy die-forgings for automotive parts Feb 36

Designing aluminum forgings for transportation equipment Apr 36

FRICTION MATERIALS
Measuring brake stopping power Mar 54

FUEL ADDITIVES
Hydrocarbon emissions rise when leaded fuels are used Mar 51

What lead additives do to emissions control systems May 32

Future automotive fuels June 36

Manganese shows promise as fuel antiknock agent Oct 30

Gasoline composition is changing Nov 22

FUEL CONSUMPTION
Natural gas engine for buses meets 1975 emission limits June 28

Low-octane fuel is o. k. for rotary engines Aug 28

FUEL INJECTION
Lucas answers questions about their car control systems Mar 36

FUELS
see:
Gasoline

FUEL SYSTEMS
see:
Carburetors/Carburetion
Fuel Injection

G

GAS ENGINES
Natural gas engine for buses meets 1975 emission limits June 28

GASOLINE
Hydrocarbon emissions rise when leaded fuels are used Mar 51

New fuel rating system eases consumer selection May 48

Future automotive fuels June 36

Low-octane fuel is o. k. for rotary engines Aug 28

Manganese shows promise as fuel antiknock agent Oct 30

Gasoline composition is changing Nov 22

Future gasoline quality Nov 17

GASOLINE ENGINES
Gradual improvement is keynote of European car design trends Feb 15

Japanese car designs stress comfort, safety, low cost June 15

How much overall energy does the automobile require? July 36

GEARS
see:
Differential Gears

H

HIGHWAYS
Automated highways - configurations Jan 28

Automated highway-traffic management strategy Jan 20

HYDROGEN ENGINES
Hydrogen-oxygen fuel system raises engine thermal efficiency Nov 24

I

IGNITION SYSTEMS
see also:
Spark Plugs

Lucas answers questions about their car control systems Mar 36

IMPACT TESTS
Child seat restraints need a lot of improvement Nov 32

HSRI develops improved neck for anthropometric dummies Nov 28

INSPECTION
Brakes, headlights, exhaust head list of cars' weak points May 42

INSTRUMENTS
see:
Calibration
Dynamometers

INTAKE SYSTEMS
More horsepower from small rotary engines June 30

L

LEGISLATION
EPA analysis of noise problems points way to future legislation Apr 28

Legal noise limits demand improved engines and subsystems May 36

A balanced approach to noise abatement Sep 38

LUBRICATION
Lubricating rotary engines May 23

M

MANIKINS
Gradual improvement is keynote of European car design trends Feb 15

XUM

HSRI develops improved neck for anthropometric dummies Nov 28

MANUFACTURING
How much energy is needed to produce an automobile? July 39

MARKET RESEARCH
Product performance in an affluent society Jan 76

METAL FORMING
see:
Forging

MOTORCYCLES
Small engine emissions and their impact July 15

N

NOISE
Recent studies give unified picture of tire noise Apr 15

EPA analysis of noise problems points way to future legislation Apr 28

Legal noise limits demand improved engines and subsystems May 36

How jury ranks tire noises Aug 40

A balanced approach to noise abatement Sep 38

Brobeck steam bus engine cuts exhaust emissions Sep 43

Reducing noise after the fact Sep 50

Reducing noise in large farm tractors Sep 52

Quieting the diesel with structural changes Dec 31

O

OCTANE NUMBER
see:
Antiknock Rating

OIL CONSUMPTION

Low-octane fuel is o. k. for rotary engines Aug 28

OVERSNOW VEHICLES
Rotary combustion engine developed for snowmobiles Dec 48

P

PASSENGER CAR DESIGN
Gradual improvement is keynote of European car design trends Feb 15

Japanese car designs stress comfort, safety, low cost June 15

1973 passenger car engineering highlights Oct 38

PASSIVE RESTRAINT SYSTEMS
New passive restraint systems Aug 30

PLASTICS
Semi-flexible urethane foam unaffected by heat and cold Sep 28

POWERPLANTS
see:
Aircooled Engines
Aluminum Engines
Diesel Engines
External Combustion Engines
Gas Engines
Gasoline Engines
Hydrogen Engines
Rocket Engines
Rotary Combustion Engines
Small Engines
Steam Engines
Turbine Engines

POWER TRANSMISSION
see:
Automatic Transmissions
Gears
Transmissions

PRODUCTION CONTROL
How much energy is needed to produce an automobile? July 39

PUMPS
see also:
Fuel Injection

Automatic fueling system cuts vehicle fueling costs Dec 34

R

RANKINE CYCLE
New rankine cycle rotary engine is compact and has no valves Jan 73

RAPID TRANSIT
Automated highways - configurations Jan 28

Moving people in the service gap July 30

REGULATIONS
The regulated automobile Dec 42

RESEARCH
see also:
Market Research

Aerospace technology: key to the future Feb 33

Aeronautical research and development May 44

ROADS
see:
Highways

ROCKET ENGINES
Space shuttle engines stress low cost, maintenance, reuse Oct 10

ROTARY COMBUSTION ENGINES
Lubricating rotary engines May 23

More horsepower from small rotary engines June 30

Combustion and emission properties of rotary engines July 26

Low-octane is o.k. for rotary engines Aug 28

Rotary combustion engine developed for snowmobiles Dec 48

S

SAFETY
see:
Antiskid Devices
Impact Tests
Passive Restraint Systems
Safety Belts
Safety Devices
Vehicle Safety

SAFETY BELTS
Gradual improvement is keynote of European car design trends Feb 15

68% of well-used seatbelts fail NBS test Mar 53

New passive restraint systems Aug 30

Child seat restraints need a lot of improvement Nov 32

SAFETY DEVICES
Experimental safety vehicles: U. S. designs and innovations Sep 30

Experimental safety vehicles: where do we go from here? Aug 19

SEALS
Lubricating rotary engines May 23

More horsepower from small rotary engines June 30

SEATS
Child seat restraints need a lot of improvement Nov 32

SERVICE LIFE
Brakes, headlights, exhaust head list of cars' weak points May 42

SMALL ENGINES
Small engine emissions and their impact July 15

SPARK PLUGS
More horsepower from small rotary engines June 30

SPEED CONTROL
Lucas answers questions about their car control systems Mar 36

STEAM ENGINES
Brobeck steam bus engine cuts exhaust emissions Sep 43

STEELS
New I-F steels improve deep drawability of auto parts Mar 46

STRUCTURES
Quieting the diesel with structural changes Dec 31

SUPERSONIC TRANSPORTS
After the SST, where do we go? Jan 81

SUSPENSION SYSTEMS
Japanese car designs stress comfort, safety, low cost June 15

T

TEST EQUIPMENT
Mobile test vehicle measures exhaust emissions on the road Jan 68

Measuring brake stopping power Mar 54

Small on-line computer controls emission test June 42

XUM

TESTS
see:
Field Tests
Impact Tests

TIRES
Recent studies give unified picture of tire noise Apr 15

How jury ranks tire noises Aug 40

TRAFFIC ENGINEERING
see also:
Highways

Automated highway-traffic management strategy Jan 20

TRANSMISSIONS
see also:
Automatic Transmissions

Transmission affects performance, economy of automotive turbines Jan 94

Gradual improvement is keynote of European car design trends Feb 15

Which transmission for single-shaft auto gas turbines? Oct 48

TRANSPORT AIRCRAFT
